Playsculpture family

The «family» offers space for a whole family, and is designed to allow movement and relaxation in the same space. The integrated wooden slides provide smaller children with a great opportunity to move and play in the immediate vicinity of the parents, who can relax – either sitting or lying – on the bench.

Design:

All objects originate from a single form – the so-called double helix, the form of the DNA strands of all living things. They thus have an energising and harmonising effect on people and the environment.

Material:

All products are constructed using 100% ecological and sustainable Accoya wood, and have a minimum outdoor life span of 25 years. They are low-maintenance and resistant to vandalism.

Safety:

All objects are manufactured according to European safety standards for playground equipment SN EN 1176.

Tech. Specifications:

Length: 300 cm
 Width: 141 cm
 Height: 91 cm
 Weight: 144 kg
 Critical fall height: 91 cm
 Freestanding available
 Number of foundations: 3
 Construction time (approx.):
 2 pers. à 2 hrs.
