Playsculpture waterdrop

«waterdrop» thanks to its non-uniform backrest, offers users the opportunity to relax the back and the posterior. The playful shape, which is evocative of a wave, is ideal for incorporating into new or existing residential districts, garden areas or public parks as part of landscaping or architecture.

Design:

All objects originate from a single form – the so-called double helix, the form of the DNA strands of all living things. They thus have an energising and harmonising effect on people and the environment.

Material:

All products are constructed using 100% ecological and sustainable Accoya wood, and have a minimum outdoor life span of 25 years. They are low-maintenance and resistant to vandalism.

Safety:

All objects are manufactured according to European safety standards for playground equipment SN EN 1176.
